

## Appendix A Planning Process

### A.1 Placer County Step 1: Organize to Prepare a Plan

#### *(a). Involvement of Community Land Use and Comprehensive Planning*

In addition to attending meetings, providing draft text for inclusion in the plan, reviewing plan documents, and coordinating input from other departments and stakeholders, Placer County planners also provided information on development since the last plan, mapping and details on future development areas, input on current mitigation capabilities, coordination with other planning mechanisms, and input on capabilities including in-progress modifications to various County plans, ordinances, and associated documents specific to Placer County's floodplain management program.

#### Placer County Planners

- Angel Green, Senior Planner, Planning Services Division, Placer County Community Development Resource Agency

Other planners to the process included Jeanine Foster and Chris Morrison, professional planners with Foster Morrison, the consultant for this LHMP Update, as well as other planners and staff from the incorporated communities and other participating jurisdictions involved in future land use development decisions for the Placer County Planning Area.

#### *(b). Staff of County Departments on HMPC with Expertise on CRS Step 7 Activities*

In order to promote the integration of CRS into this planning process, the representatives from the County were selected based on their areas of expertise relative to the CRS mitigation categories as detailed in Table A-1.

*Table A-1 Placer County Staff Capability with Six Mitigation Categories*

*(c) Placer County Resolution formally recognizing and establishing the planning process/planning committee*

Placer County put together a formal resolution early in the planning process for the establishment of a planning committee. This resolution can be seen below.

# Before the Board of Supervisors County of Placer, State of California

Resolution No.: 2021-028

**In the matter of:** A resolution establishing a Hazard Mitigation Planning Committee and Hazard Mitigation Planning Subcommittee for the update of the Placer County Local Hazard Mitigation Plan

The following Resolution was duly passed by the Board of Supervisors of the County of Placer at a regular meeting held on February 16, 2021, by the following vote:

Ayes: GORE, WEYGANDT, HOLMES, JONES, GUSTAFSON

Noes: NONE

Absent: NONE

Signed and approved by me after its passage.

THE FOREGOING INSTRUMENT IS A CORRECT  
COPY OF THE ORIGINAL ON FILE IN THIS OFFICE  
ATTEST

MEGAN WOOD  
Clerk of the Board of Supervisors, County  
of Placer, State of California  
  
Deputy Clerk

  
Chairman, Board of Supervisors

Attest:

  
Clerk of said Board

WHEREAS, Placer County is required to do hazard mitigation planning pursuant to the Robert T Stafford Disaster Mitigation Act of 2000 (DMA 2000) and for continued eligibility for certain sources of Federal Emergency Management Agency (FEMA) mitigation funding programs; and

WHEREAS, Placer County participates in The National Flood Insurance Program's (NFIP) Community Rating System (CRS); and

WHEREAS, the CRS Program also requires the County to adopt a Local Hazard Mitigation Plan (LHMP) with a Floodplain Management Plan component; and

WHEREAS, FEMA encourages combining the LHMP and CRS planning efforts into a single, coordinated plan; and

WHEREAS, to combine both program's efforts and meet the requirements of the LHMP and CRS Activity 510, it is necessary to establish a Hazard Mitigation Planning Committee (HMPC) and Hazard Mitigation Planning Subcommittee (HMP Subcommittee); and

WHEREAS, collectively, the HMPC and HMP Subcommittee will meet to fulfill the obligations of FEMA's DMA 2000 and the CRS Program Floodplain Management planning requirements through

organizing preparation of the LHMP update, involving the public, coordinating with other agencies, assessing the hazards, assessing problems, setting goals, reviewing possible activities, and assisting in the drafting of a mitigation action plan.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE COUNTY OF PLACER, that the Board takes the following actions:

1. Establish a Hazard Mitigation Planning Committee (HMPC) and authorize the County Executive Officer, or designee, to appoint County staff members to the HMPC; and
2. Approve the following criteria for representation on the HMPC:

HMPC Representation

a. County Departments

- i. Agricultural Commissioner
- ii. Assessor's Office
- iii. Community Development Resource Agency
- iv. Facilities Services
- v. Fire Service
- vi. Health and Human Services
- vii. Office of Emergency Services
- viii. Public Works
- ix. Risk Management
- x. Sheriff's Office

b. Incorporated communities

- xi. City of Auburn
- xii. City of Colfax
- xiii. City of Lincoln
- xiv. City of Rocklin
- xv. Town of Loomis

c. Other participating organizations to include special districts and others seeking FEMA approval of their respective annex in the LHMP.

d. Other private citizens, members of the public, and stakeholders including local, regional, state, and federal agencies and partners identified by the Placer County Office of Emergency Services.

3. Establish a Hazard Mitigation Planning Subcommittee comprised of three (3) members of the public appointed by the County Executive Officer, or designee, and the three (3) County staff members of the HMPC from the Community Development Resource Agency, the Department of Public Works, and the Office of Emergency Services.
4. This resolution shall take effect immediately.

**Subject:** Placer County Local Hazard Mitigation Plan Update Project - Hazard Mitigation Planning Committee Kickoff Meeting Invite

**When:** Wednesday, October 28, 2020 1:30 PM-4:00 PM (UTC-08:00) Pacific Time (US & Canada).

**Where:** Zoom Platform -

<https://us02web.zoom.us/j/81109100563?pwd=K1lmSzdzcDd4YjZtc2NxNUdvWnJ3dz09>; Meeting ID: 811 0910 0563; Passcode: 479633; Or call in: +1 669 900 6833 US (San Jose)

Greetings,

Placer County is kicking off efforts to develop a Local Hazard Mitigation Plan (LHMP) Update to the 2016 LHMP. The purpose of the LHMP Update process is to help reduce the impacts of hazards to the citizens, property, and critical infrastructure in the County. The Disaster Mitigation Act of 2000 (DMA 2000) requires that local governments have a FEMA-approved LHMP in place in order to be eligible for certain pre- and post-disaster mitigation funding utilized to protect communities from future disaster-related losses. Another benefit of this LHMP Update is to enhance the floodplain management programs of the county and cities which can help reduce the costs of flood insurance to residents of Placer County through their participation in the National Flood Insurance Program's (NFIP) Community Rating System (CRS).

You are receiving this notice because we would like to invite you to take part in this plan update as a member of the Hazard Mitigation Planning Committee (HMPC). In addition to plan participation by Placer County Departments, Cities/Town, fire districts, special districts, and state and federal agencies, the public and other interested stakeholders are encouraged to attend and participate. For additional info on the make-up of HMPC and participating allied agencies and stakeholders, please see attachment.

Agency and community participation and coordination is a requirement of an approved Plan, as is the inclusion of any hazard data, information, and mitigation projects your organization may want to see included in the Plan. Thus, your participation in this process is important and encouraged. Your input will be critical to the success of this project. Participation includes:

- Attending and participating in the HMPC meetings (5 anticipated over the next 9 months)
- Providing available data/information requested of the HMPC
- Reviewing and providing comments on the plan drafts

Placer County Office of Emergency Services (OES) is taking the lead on coordinating the LHMP updating project working with hired consultant, Foster Morrison Consulting (FMC). A project kickoff meeting will be held at the following location and date/time:

Planning Committee Meeting: Virtual Meeting – Zoom Platform

October 28, 2020 (Wednesday)

1:30 – 4:00 pm

<https://us02web.zoom.us/j/81109100563?pwd=K1lmSzdzcDd4YjZtc2NxNUdvWnJ3dz09>

Meeting ID: 811 0910 0563

Passcode: 479633

Or call in: +1 669 900 6833 US (San Jose)

The kickoff meeting will explain the process and how you can be involved. A public stakeholder meeting will also be held the evening of the same day of the kickoff meeting via Zoom from 6:00 – 7:30 pm. We encourage the public to participate as part of the HMPC to help inform this LHMP Update.

For more information on this project, please visit: <https://www.placer.ca.gov/1381/Local-Hazard-Mitigation-Plan>

Please RSVP and plan on attending or delegating attendance to this important meeting. If you are not the point of contact for your organization or would like to include others from your staff to receive future invites or updates, please let me know. For additional information or if you have questions, please contact Young (Rod) Rodriguez at [yrodrigu@placer.ca.gov](mailto:yrodrigu@placer.ca.gov) or by calling at (530) 886-5316.

## Kickoff Meeting Agenda

# **PLACER COUNTY LOCAL HAZARD MITIGATION PLAN (LHMP) UPDATE HMPC (KICKOFF) MEETING #1 October 28, 2020**

1. Introductions
2. Hazard Mitigation & the Disaster Mitigation Act Planning Requirements
3. The National Flood Insurance Program (NFIP) Community Rating System (CRS)
4. The Role of the Hazard Mitigation Planning Committee (HMPC)
5. Planning for Public Input
6. Coordinating with other Agencies
7. Hazard Identification
8. Schedule
9. Data Needs
10. Questions and Answers

## Kickoff Meeting Sign-in Sheets

Name/Title	Department/Agency/ Affiliation
Jeff Ingolia	South Placer Fire District
Eric Sweet	Sierra Pacific Industries
Darryl Mitani	Placer County Agriculture Department
Andrew Mishler	USFS Tahoe NF – American River
Neil Cochran	Foresthill Public Utility District
Mary George	Placer County Library
Scott Alcantara	San Juan Water District
Erik Angle	Sutter Roseville Medical Center
Brandon Burks	Olympic Valley Public Services District
Rod Rodriquez	Placer County OES
Brenna Howell	Howell Consulting with Foster Morrison
Holly Powers	Placer County OES
Shawnna Pratt	Placer County OES
Ted Rel	Placer County Parks and Rec Division
Bob Costa	Citizen Participan
Jim Kotey	Placer County Risk Management
Eric Horntvedt	North Tahoe Fire Protection District
Terry Butrym	Placer County Risk Management
Bill Seline	Truckee Fire
David Atkinson	Placer County, Department of Public Works, Environmental Utilities
Adam Baughman	Placer County APCD
Dennis Hughes	Placer County Facilities Management
Brett Storey	Placer County CDRA
Peter Kraatz	Placer County Public Works Department
Angel Green	Senior Planner, Placer County Community Development Resource Agency
Greg Jones	Nevada Irrigation District
Chris Gray-Garcia	Placer County Deputy Director of Communications and Public Affairs
Mary Keller	Placer County Flood
Brian Crawford	USFS Tahoe NF
Ed Snider	Placer County and Alta Fire Protection District
Allen Riley	Olympic Valley Fire Department
Roland Neufeld	City of Lincoln
Sarah Jones	Placer RCD, Executive Director
Erin Holland	North Tahoe Fire Public Information Officer
Brad Brewer	Placer County Flood Control and Water Conservation District, District Mgr.

Name/Title	Department/Agency/ Affiliation
Josh Huntsinger	Placer County Agriculture Department
Lee Kiolbasa	Liberty Utilities
Ann Hobbs	Placer County Air Pollution Control District
Justin Nartker	City of Rocklin
Sean Bailey	Northstar Fire Department
Nikki Streegan	Placer County Planning Services
Crystal Jacobsen	Placer County Tahoe CDRA
Suzi Gibbons	North Tahoe Public Utility District
Jenn Tamo	Nevada County Office of Emergency Services
Steve Pedretti	Director of Placer CDRA
Georges Alves	Placer RCD
Jim Hudson	Placer County Fire Department/Cal Fire
Chris Brown	Placer County CDRA
James Anderberg	Placer County Office of Education, Chief Operations Officer, Admin Svcs
Sadie Caldas	Placer County Environmental Engineering, Env. Resource Specialist
Robin Mahoney	Placer County Environmental Engineering
Reggie Williams	City of Rocklin, Fire Chief
Danielle Hughes	Tahoe Transportation District, Capital Program Manager
Emily Setzer	CDRA Tahoe, Sr. Management Analyst
Wendy Williams	Placer County Director of Communications
Sarah Poindexter	Placer County Executive Office, Management Analyst II
Jamie Sartain	City of Rocklin, Environmental Services Technician
Mark D'Amrogi	Placer Hills Fire District
Mark D'Amrogi	Newcastle Fire District
Mark D'Amrogi	Placer Sierra Fire Safe Council
Daniel Dottai	Public Representative
Luana Dowling	Placer Firewise Community Coordinator
Jerry Martinez	Fire Management Officer BLM
Shane Wright	Placer County
Dave Spencer	City of Auburn Fire Department
Erik Skinner	VP Administrative Services, Sierra College
Sean Rabe	Town of Loomis, Town Manager
Mike Garabedian	Public
Peter Cheney	Placer County Water Agency
Chris Morrison	Foster Morrison Consulting
Jeanine Foster	Foster Morrison Consulting

Placer County Hazard Mitigation Planning Committee:

You are invited to the HMPC Risk Assessment Meeting, our second planning committee meeting for the development of Placer County's Local Hazard Mitigation Plan (LHMP) Update. Many of you attended the planning committee kickoff meeting on October 28, 2020 which initiated the hazard mitigation planning effort, with support from Foster Morrison Consulting. Over the past couple of months, the Foster Morrison team has been working to collect data to develop Chapter 4 of our LHMP, the Risk Assessment Chapter, and for development of the Jurisdictional Annexes to the LHMP.

This Risk Assessment Meeting will be held via Zoom on Wednesday, February 3 from 1:30 – 4:00 pm. During this meeting, we will be reviewing the risk assessment data developed to date and will be looking for your feedback in refining and adding to this in-process Risk Assessment Chapter. We will also be discussing jurisdictional participation and data still needed to inform the risk assessment for the Placer County LHMP Update. Current information on the LHMP Update and dates and times of future meetings are located at <https://www.placer.ca.gov/1381/Local-Hazard-Mitigation-Plan>

#### **Join Zoom Meeting**

## **Risk Assessment Meeting Agenda**

### **Placer County Local Hazard Mitigation Plan (LHMP) Update Risk Assessment Meeting: February 3, 2021**

1. Introductions
2. Status of the DMA Planning Process
3. Review of Risk Assessment
4. Open Discussion and Input on the Risk Assessment (Handout)
5. Review of Data Needs
6. Next Steps

## Risk Assessment Meeting Sign in Sheets

Name/Title	Department/Agency/ Affiliation
Jeff Ingolia	South Placer Fire District
Scott Alcantara	San Juan Water District
Brandon Burks	Olympic Valley Public Services District
Rod Rodriguez	Placer County OES
Brenna Howell	Howell Consulting with Foster Morrison
Holly Powers	Placer County OES
Shawna Pratt	Placer County OES
Eric Horntvedt	North Tahoe Fire Protection District
David Atkinson	Placer County, Department of Public Works, Environmental Utilities
Adam Baughman	Placer County APCD
Brett Storey	Placer County CDRA
Angel Green	Senior Planner, Placer County Community Development Resource Agency
Chris Gray-Garcia	Placer County Deputy Director of Communications and Public Affairs
Mary Keller	Placer County Flood
Brian Crawford	USFS Tahoe NF
Ed Snider	Placer County and Alta Fire Protection District
Allen Riley	Olympic Valley Fire Department
Roland Neufeld	City of Lincoln
Jarrett Thiessen	Placer County – IT Director
Phillip Williams	Placer County Office of Education – Deputy Superintendent
Erin Holland	North Tahoe Fire Public Information Officer
Josh Huntsinger	Placer County Agriculture Department
Suzi Gibbons	North Tahoe Public Utility District
Jed Matcham	Assistant Chief/Fire Marshall, Foresthill Fire Department
Dannette Austin	Nevada Irrigation District, austind@nidwater.org
Karen Enghusen	City of Rocklin kmtenghusen@hotmail.com
Dan Lewis	Tahoe City PUD, dlewis@tcpud.org
Pat Dillon	Liberty Utility
Heath Wakelee	Public, American Red Cross, Friends of Auburn Ravine, hwakelee@gmail.com
Matt Shawver	PCOE, mshawver@placercoe.org
Tami Martin	American Red Cross, tami.martin@redcross.org
Tolan Dworak	City of Lincoln Fire, tolan.dworak@lincolnca.gov
Jason Gibeaut	Northstar Fire Department, jgibeaut@northstarcsd.org
Steve Newsom	Placer County Director of Facilities Management
Dennis Hughes	Placer County Facilities Management

Name/Title	Department/Agency/ Affiliation

**Subject:** Placer County LHMP Update: Mitigation Strategy Goal Meeting - Save the Date, 2/24/2021

**When:** Wednesday, February 24, 2021 2:00 PM-3:30 PM (UTC-08:00) Pacific Time (US & Canada).

**Where:** Zoom Meeting Link:

<https://us02web.zoom.us/j/81578188040?pwd=RE9rRnVKMFhKYXRHNGJCeTFpdnRxUT09>, Or call-in +1 669 900 6833, Meeting ID: 815 7818 8040, Passcode: 958595

Good afternoon,

First, thank you to those who attended last week's LHMP Risk Assessment Meeting and for all the great hazard input! Keep it coming – Remember we need hazard information specific to Placer County and each Participating Jurisdiction including hazard problem areas, past hazard occurrences since 2016, including impacts and damages and any unique vulnerability issues and impacts. Review the attached “Placer Risk Assessment Summary v020321” highlights for areas where additional information is needed.

Second, you are invited to the Mitigation Strategy Meetings (HMPC #3 & #4) for the 2021 Placer County LHMP Update. **These are the two most important meetings for this LHMP Update.**

**Wednesday, February 24 (2:00 pm - 3:30 pm) - Mitigation Strategy Goal Meeting –**

During this first meeting, we will be providing an overview of the LHMP Update Project and defining Next Steps. We will also be updating LHMP goals and objectives from the 2016 LHMP.

Zoom Meeting

Link: <https://us02web.zoom.us/j/81578188040?pwd=RE9rRnVKMFhKYXRHNGJCeTFpdnRxUT09>

Meeting ID: 815 7818 8040

Passcode: 958595

One tap mobile

+16699006833,81578188040#,\*958595# US (San Jose)

**Tuesday, March 2 (2:00 pm – 4:30 pm) - Mitigation Strategy Actions/Projects Meeting –**

During this second meeting, we will be working to identify and evaluate potential mitigation actions and projects for reducing Placer County's and all Participating Jurisdiction's risk and vulnerability to priority hazards and disasters.

**\*\*Please make sure everyone that has mitigation projects to include in the LHMP Update for all identified priority hazards attends – All Participating Jurisdictions and their key staff, with knowledge or input on mitigation actions and projects, need to be present\*\***

\*\*\*Attached is the “Goals and Actions from the 2016 LHMP” for reference – this is what we are updating and adding to!

Zoom Meeting

Link: <https://us02web.zoom.us/j/81003262326?pwd=RDE3cUx0aYlY5b0V1bTQyS09UK1RYQT09>

Meeting ID: 810 0326 2326

Passcode: 922171

One tap mobile

+16699006833, 81003262326, \*922171# US (San Jose)

Information for both meetings and attachments will also be posted on the County website at <https://www.placer.ca.gov/1381/Local-Hazard-Mitigation-Plan>

**County and agency participation and coordination is a requirement of an approved LHMP, as is the inclusion of any hazard data, information, and mitigation projects your department or agency may want to see included in the plan. Your continued participation and input is critical to the success of this project.**

**Attachments:**

- **FEMA Mitigation Ideas:** This reference document will provide mitigation projects ideas. Highly encourage all participants to review. What fits for Placer County?
- **Goals and Actions from the 2016 LHMP:** Will be reviewed during the meeting March 2<sup>nd</sup>
- **Placer Mitigation Action Worksheet:** This will need to be completed for each mitigation project/action to be included in the Plan Update, whether they are new or are being carried forward from the 2016 project list.
- **Placer Risk Assessment Summary v020321:** for reference and additional hazard risk information

Please let me know if you have questions. Thank you.

## Mitigation Strategy Meeting Agenda

### Placer County Local Hazard Mitigation Plan (LHMP) Update Mitigation Strategy Meetings February 24<sup>th</sup> and March 2<sup>nd</sup>, 2021

#### *HMPC Meeting #2:*

1. Introductions
2. LHMP Project Status and Next Steps/Timeline
3. Priority Hazards Review
4. Develop Plan Goals and Objectives
5. Introduction to HMPC Meeting #4: Mitigation Alternatives/Actions/Projects

#### *HMPC Meeting #3:*

1. Introductions
2. Review Mitigation Categories and Selection Criteria
3. Brainstorming of Mitigation Alternatives/Actions/Projects by Hazard
4. Review of Voting Process for Prioritization of Mitigation Projects
5. Questions

## Mitigation Strategy Meeting Sign in Sheets – February 24th

Name/Title	Department/Agency/Affiliation

## A.2 Placer County Step 2: Involve the Public

Multiple efforts were made to engage the public during the creation of this plan, including direct outreach efforts such as phone calls, emails, direct mailings, and face-to-face meetings, in addition to the broader outreach efforts such as e-newsletters, website postings, newspaper advertisements and articles, and leveraging other community events to communicate and invite participation in the LHMP Update project. A key element of public participation is including members of the public and other public-type stakeholders (at 50% participation) on the Hazard Mitigation Planning Committee.

### *a) List of Hazard Mitigation Planning Committee (HMPC) Members*

The HMPC, comprising key county, city, special district, and other government and stakeholder representatives and the public, developed the plan with leadership from the County OES and facilitation by Foster Morrison. The non-local government members of the Steering Committee (citizens and other outside stakeholders) represent more than 50% representation of the committee.

This list of HMPC members is shown in Section A.1.c of this Appendix.

### *b) and c) Public Meetings*

In addition to advertisement and newspaper article for public participation, notices of meetings were sent directly to all persons on the HMPC contact list and also to other agency and key stakeholders with an interest in the Placer County Planning Area. The majority of these people reside in Placer County or in surrounding communities. The formal public meetings for this project are summarized in the following table.

Meeting Type	Meeting Topic	Meeting Date	Meeting Locations
Early Public Meeting	1) Intro to DMA, CRS and mitigation planning 2) 2021 LHMP Update Process	October 28, 2020	Zoom Meeting
Final Public Meeting	1)Presentation of Draft LHMP and solicitation of public and stakeholder comments	June 9, 2021	Zoom Meeting

### Placer County is seeking community feedback for their 2021 local hazard mitigation plan update

*Published Oct. 8, 2020*

Placer County is seeking community feedback to update its local hazard mitigation plan.

The plan, a partnership with cities and special districts, assesses the risk of floods, drought, wildfires, severe weather, and other natural hazards of concern to the county. While hazards are not always preventable, a hazard mitigation plan establishes the foundation for a long-term community strategy to reduce disaster losses, while also making Federal Emergency Management Agency resources available upon plan approval.

A FEMA-approved hazard mitigation plan allows agencies to apply for pre- and post-disaster mitigation grant funding. It can also increase community ratings used for the National Flood Insurance Program, which can result in lower flood insurance premiums through the program.

Placer County is seeking members of the public to participate on the hazard mitigation planning committee for this plan update. Background experience on the issue is not required. Placer County is requesting attendance and participation from the community at the upcoming planning committee and public meetings to kick off the project.

Join us (virtually) for our first community meetings Oct. 28. [Learn more](#)

## Early Public Meeting Press Release

### **Placer County 2021 Local Hazard Mitigation Plan Update**

*HELP YOUR COMMUNITY BE HAZARD-READY!*

Placer County with its cities and numerous special districts will be updating their 2016 Local Hazard Mitigation Plan (LHMP) looking at the risk of floods, drought, wildfires, severe weather, and other natural hazards of concern to the County. While hazards such as these cannot be prevented, a Hazard Mitigation Plan forms the foundation for a community's long-term strategy to reduce disaster losses. A FEMA-approved Hazard Mitigation Plan allows agencies to apply for pre- and post-disaster mitigation grant funding. In addition, this LHMP Update provides for lower costs of flood insurance premiums to residents of Placer County through the National Flood Insurance Program's (NFIP) Community Rating System (CRS).

You are invited. Placer County is seeking members of the public to participate on our Hazard Mitigation Planning Committee (HMPC) for this LHMP Update. No background or expertise is required. We encourage attendance and participation from the general public at our upcoming Planning Committee and Public Meetings to kick off the project; please select the time and location that works best for you:

## Last chance to give YOUR feedback on emergency plans!

This is the final week to give feedback on emergency planning efforts in Placer County! Our Local Hazard Mitigation Plan is now live for your review and will be receiving feedback at community meetings June 9 and June 10. Also, this is the last week to take our

Community Wildfire Preparedness Plan survey. Together we can make sure our county is emergency prepared! [View the LHMP plan](#) and [take the CWPP survey today](#)

## **Help Reduce Disaster Losses in Your Community!**

### **We need your participation in the Placer County Local Hazard Mitigation Plan Update**

Placer County is partnering with their incorporated communities and several special districts to develop a Local Hazard Mitigation Plan (LHMP) Update to their 2016 plan. The purpose of this LHMP Update is to assess community risk and vulnerability to identified hazards, implement actions to reduce future losses, and maintain eligibility for federal mitigation funds in accordance with the Disaster Mitigation Act of 2000.

#### ***What is Hazard Mitigation?***

***Hazard mitigation means any action taken to reduce or eliminate the long-term risk to human life and property from natural hazards.***

#### ***Why is Natural Hazard Mitigation Important?***

Most people who live or work in Placer County have been affected by natural hazards in one way or another. Placer County and its residents are vulnerable to a variety of hazards including floods, drought, wildfire, earthquake, and a variety of other severe weather events.

The rising costs associated with disaster response and recovery have focused the attention of federal, state, and local governments on addressing natural hazards before they occur. Obviously, torrential rains and floods cannot always be prevented from occurring. Planning for natural hazards and implementing mitigation measures, however, can reduce the impact of such events when they do occur. Emergency response and recovery costs; property damage; personal injury and loss of life; and the overall economic and social impact on the community can all be reduced, and in some instances eliminated through natural hazard mitigation.

#### ***Hazard Mitigation Plan and Plan Update Process***

Utilizing a FEMA grant, Placer County is developing an update to their 2016 LHMP. This LHMP Update is being developed by a Hazard Mitigation Planning Committee comprised of representatives from the County, Cities, neighboring jurisdictions, federal, state, and local agency stakeholders, and the public.

The plan will address an updated list of hazards, will assess the likely impacts of these hazards to the people and assets of the Placer County Planning Area, and will also establish updated goals and prioritize projects to reduce the impacts of future disasters on people and property as well as to critical facilities and infrastructure.

Another benefit of mitigation planning is that it can also help lessen the cost of flood insurance to the residents of Placer County through FEMA's National Flood Insurance Program's (NFIP) Community Rating System.

### *National Flood Insurance Program's Community Rating System*

The NFIP's Community Rating System (CRS) is a voluntary incentive program that recognizes and encourages community floodplain management activities that exceed the minimum NFIP requirements. As a result, flood insurance premium rates are discounted to reflect the reduced flood risk resulting from the community actions in meeting the goals of the CRS Program. The reduction in flood insurance premium rates is provided according to a community's CRS classification. Placer County is currently a CRS Class 5, which provides for a 25 percent discount on flood insurance to those located within the special flood hazard area (SFHA) and a 10 percent discount to those located in non-SFHA areas.

### *Opportunities for Input*

Members of the community have a very important role in this process.

#### **Draft LHMP Documents**

A draft of the LHMP Update is available for review and comment by the public and all interested stakeholders on the County website at: <https://www.placer.ca.gov/1381/Local-Hazard-Mitigation-Plan> and hard copies placed in the following locations: **INSERT**.

All comments on the Public Review Draft should be submitted to [jeanine.foster@fostermorrison.com](mailto:jeanine.foster@fostermorrison.com).

## Final Public Meeting Press Release

### **\*Press Release\***

#### **Placer County Invites Comments on their 2021 Local Hazard Mitigation Plan Update!**

*HELP YOUR COMMUNITY BE HAZARD-READY!*

**Placer County, CA:** Placer County is partnering with its five incorporated communities and several special districts to develop an update their 2016 Local Hazard Mitigation Plan (LHMP). Floods, drought, wildfires, and severe weather are just a few of the hazards of concern to the Placer County Planning Area. While natural hazards such as these cannot be prevented, an LHMP forms the foundation for a community's long-term strategy to reduce disaster losses by breaking the repeated cycle of disaster damage and reconstruction. Additionally, communities with a FEMA-approved LHMP are eligible to apply for both pre- and post-disaster mitigation grant funding and for lower costs of flood insurance to residents through the National Flood Insurance Program's (NFIP) Community Rating System (CRS).

The process began in November 2020 with an initial planning and public meeting and the establishment of a Hazard Mitigation Planning Committee (HMPC) comprised of representatives from the County, incorporated communities, special districts, other key stakeholders, and the public. The 2021 LHMP Update is scheduled to be finalized and submitted to Cal OES and FEMA in June 2021.

#### **Public Review Draft**

The Public Review Draft of the 2021 LHMP Update is available online (pdf format) at: <https://www.placer.ca.gov/1381/Local-Hazard-Mitigation-Plan>. It is also available (in printed copy) at the following Placer County locations:

- Placer County Public Library Main Branch
- ???

#### **Public and Planning Committee Meetings**

We encourage attendance and participation from the general public at our upcoming public and planning committee meetings on the Draft LHMP. Please select the time and location that works best for you:

##### **Public Meeting**

Wednesday June 9, 2021

6:00-7:30 pm (Zoom Meeting)

##### **Final Committee Meeting**

Thursday June 10, 2021

9:00-11:00 am (Zoom Meeting)

Call in information for the Zoom meetings is provided at: <https://www.placer.ca.gov/1381/Local-Hazard-Mitigation-Plan>.

#### **Comments on the Public Review Draft (due by June 18, 2021)**

There are a couple of options for providing input and comments on the Public Review Draft:

- Email comments to [Jeanine.foster@fostermorrison.com](mailto:Jeanine.foster@fostermorrison.com) or [yrodrigu@placer.ca.gov](mailto:yrodrigu@placer.ca.gov)
- Drop off written comments or send by mail to: Placer County OES, Attn. Young Rodriguez, 2968 Richardson Drive, Auburn CA 95603

For more information contact Rod Rodriguez at [yrodrigu@placer.ca.gov](mailto:yrodrigu@placer.ca.gov).

**Placer County is seeking community feedback for their 2021 local hazard mitigation plan update.** Hello!

Placer County is seeking community feedback to update its local hazard mitigation plan.

The plan, a partnership with cities and special districts, assesses the risk of floods, drought, wildfires, severe weather, and other natural hazards of concern to the county. While hazards are not always preventable, a hazard mitigation plan establishes the foundation for a long-term community strategy to reduce disaster losses, while also making Federal Emergency Management Agency resources available upon plan approval.

A FEMA-approved hazard mitigation plan allows agencies to apply for pre-and post-disaster mitigation grant funding. It can also increase community ratings used for the National Flood Insurance Program, which can result in lower flood insurance premiums through the program.

Placer County is seeking members of the public to participate on the hazard mitigation planning committee for this plan update. Background experience on the issue is not required. Placer County is requesting attendance and participation from the community at the upcoming planning committee and public meetings to kick off the project.

Planning committee virtual meeting  
Wednesday, Oct. 28

**Placer County is seeking community feedback for their 2021 local hazard mitigation plan update.** Hello!

Placer County is seeking community feedback to update its local hazard mitigation plan.

The plan, a partnership with cities and special districts, assesses the risk of floods, drought, wildfires, severe weather, and other natural hazards of concern to the county. While hazards are not always preventable, a hazard mitigation plan establishes the foundation for a long-term community strategy to reduce disaster losses, while also making Federal Emergency Management Agency resources available upon plan approval.

A FEMA-approved hazard mitigation plan allows agencies to apply for pre-and post-disaster mitigation grant funding. It can also increase community ratings used for the National Flood Insurance Program, which can result in lower flood insurance premiums through the program.

Placer County is seeking members of the public to participate on the hazard mitigation planning committee for this plan update. Background experience on the issue is not required. Placer County is requesting attendance and participation from the community at the upcoming planning committee and public meetings to kick off the project.

Planning committee virtual meeting  
Wednesday, Oct. 28  
1:30 – 4 p.m.

## Placer County seeks public feedback for local hazard mitigation plan update

 Stacey Adams Oct 27, 2020 5:00 AM

Placer County is inviting the public to provide feedback on the update of the 2016 local hazard mitigation plan.

According to the Federal Emergency Management Agency (FEMA) website, a mitigation plan minimizes the impact of disasters and is the key to breaking the cycle of disaster damage, reconstruction and repeated damage.

The county works with several allied local, state and federal agencies, such as Cal Fire, Caltrans, Parks and Recreation, CHP and the Bureau of Reclamation, to assess natural hazards that are of concern to the county and each agency. Including wildfires, floods and severe weather. Throughout the process, a risk and vulnerability assessment will be completed and information from participating agencies will be reviewed and updated, according to Rod Rodriguez, Placer County emergency services coordinator.

The plan develops the foundation for a strategy to reduce disaster loss and makes FEMA resources available once a plan is approved. According to a county news release, a FEMA-approved plan allows agencies to apply for disaster mitigation funding, and can increase community ratings used for the National Flood Insurance Program, which can lower flood insurance premiums through the program.

The county will host two virtual meetings Wednesday, Oct. 28, for the project update:

## **Help Reduce Disaster Losses in Your Community!**

### **We need your participation in the Placer County Local Hazard Mitigation Plan Update**

Placer County is partnering with their incorporated communities and several special districts to develop a Local Hazard Mitigation Plan (LHMP) Update to their 2016 plan. The purpose of this LHMP Update is to assess community risk and vulnerability to identified hazards, implement actions to reduce future losses, and maintain eligibility for federal mitigation funds in accordance with the Disaster Mitigation Act of 2000.

#### *What is Hazard Mitigation?*

*Hazard mitigation means any action taken to reduce or eliminate the long-term risk to human life and property from natural hazards.*

#### *Why is Natural Hazard Mitigation Important?*

Most people who live or work in Placer County have been affected by natural hazards in one way or another. Placer County and its residents are vulnerable to a variety of hazards including floods, drought, wildfire, earthquake, and a variety of other severe weather events.

The rising costs associated with disaster response and recovery have focused the attention of federal, state, and local governments on addressing natural hazards before they occur. Obviously, torrential rains and floods cannot always be prevented from occurring. Planning for natural hazards and implementing mitigation measures, however, can reduce the impact of such events when they do occur. Emergency response and recovery costs; property damage; personal injury and loss of life; and the overall economic and social impact on the community can all be reduced, and in some instances eliminated through natural hazard mitigation.

#### *Hazard Mitigation Plan and Plan Update Process*

Utilizing a FEMA grant, Placer County is developing an update to their 2016 LHMP. This LHMP Update is being developed by a Hazard Mitigation Planning Committee comprised of representatives from the County, Cities, neighboring jurisdictions, federal, state, and local agency stakeholders, and the public.

The plan will address an updated list of hazards, will assess the likely impacts of these hazards to the people and assets of the Placer County Planning Area, and will also establish updated goals and prioritize projects to reduce the impacts of future disasters on people and property as well as to critical facilities and infrastructure.

Another benefit of mitigation planning is that it can also help lessen the cost of flood insurance to the residents of Placer County through FEMA's National Flood Insurance Program's (NFIP) Community Rating System.

#### *National Flood Insurance Program's Community Rating System*

The NFIP's Community Rating System (CRS) is a voluntary incentive program that recognizes and encourages community floodplain management activities that exceed the minimum NFIP requirements. As a result, flood insurance premium rates are discounted to reflect the reduced flood risk resulting from the community actions in meeting the goals of the CRS Program. The reduction in flood insurance premium rates is provided according to a community's CRS classification. Placer County is currently a CRS Class 5, which provides for a 25 percent discount on flood insurance to those located within the special flood hazard area (SFHA) and a 10 percent discount to those located in non-SFHA areas.

#### *Opportunities for Input*

Members of the community have a very important role in this process. Several planning team meetings will be held over the next eight months. A draft of the LHMP Update will be available Spring 2021 for review and comment by the public and all interested stakeholders on the County website and in select public libraries. Public meetings on the Draft Plan and final planning team meetings will also occur in early Summer 2021. All interested stakeholders and members of the public are encouraged to attend our planning team and public meetings.

## LOCAL HAZARD MITIGATION PLAN

FEMA defines **Hazard Mitigation** as any action taken to reduce or eliminate the long-term risk to human life and property from identified hazards of concern.

Placer County is partnering with its Cities, Towns, fire districts, and several special districts to update the 2016 Local Hazard Mitigation Plan (LHMP). Wildfire, flood, severe weather, drought, and earthquake are just a few of the hazards to Placer County. While natural hazards such as these cannot be prevented, an LHMP forms the foundation for a community's long-term strategy to reduce disaster losses by breaking the repeated cycle of disaster damage and reconstruction.

Communities with a FEMA-approved LHMP are eligible for FEMA pre- and post-disaster grant funding and are better positioned to respond and recover when disasters occur. Through the LHMP development process, Placer County can also assist in lowering the costs of flood insurance premiums to county residents through participation in the National Flood Insurance Program's (NFIP) Community Rating System (CRS).

Nationwide, taxpayers annually pay billions of dollars helping communities, organizations, businesses and individuals recover from disaster. Some disasters are predictable and, in many cases, damage can be reduced or eliminated through hazard mitigation planning. The Federal Emergency Management Agency (FEMA) has targeted natural disaster loss reduction as one of its primary goals. Under the Disaster Mitigation Act of 2000, local jurisdictions are required to have a FEMA-approved Local Hazard Mitigation Plan (LHMP) to better position resources in advance of a disaster and to maintain eligibility for certain disaster assistance and hazard mitigation funding programs.

### Placer County 2021 Local Hazard Mitigation Plan Update

Placer County is kicking off the LHMP Update process with meetings in October 2020. The plan will address an updated list of hazards, will assess the likely impacts of these hazards to the people and assets of the Placer County planning area, and will also establish updated goals and prioritize projects to reduce the impacts of future disasters on people and property as well as to critical facilities and infrastructure.

#### Opportunities for Input

Members of the community have a very important role in this process. A draft of the 2021 LHMP Update will be available on this website in Spring 2021 for review and comment by the public and all interested stakeholders.

Planning Committee and public meetings will also be held as part of the plan development process. In addition to plan participation by Placer County departments, cities, towns, fire districts, special districts, state and federal agencies, the public, and other interested stakeholders are encouraged to attend and participate in either Planning Committee or public meetings. Information on specific meeting times and locations are detailed below.

You may also provide your input by participating in [this survey](#).

Select Language

## Survey

An integral element in hazard mitigation planning is broad public participation. Information provided by residents fosters a better understanding of local hazard concerns and can spawn innovative ideas to reduce impacts of future hazard events. A public opinion survey was accomplished to gather information from Placer County Planning Area residents concerning local hazards. The survey was located on the County's LHMP website and survey participation was promoted through public meetings, program websites, press

Placer County  
Local Hazard Mitigation Plan Update  
June 2021

Appendix A.61

releases, social media, and other public outreach events as previously described. Following is a summary of survey results.

- 231 individuals took the survey.
- 122 out of the 231 people who responded were extremely concerned about the possibility of the community being affected by a disaster.
- Wildfire, drought, and climate change were hazards of greatest concern.
- 3 out of 231 respondents noted that their house was in a floodplain, 61 out of 231 did not know if their home was in a floodplain.
- 201 of the 231 respondents do not have flood insurance, while 13 of them do.
- 78 out of 231 stated that communities are not doing enough to inform the public about hazards affecting the County, while 65 of the 231 stated the community was doing a good job. 85 did not know or had no opinion.
- Of the 231 respondents, 25 felt unprepared, 157 felt somewhat prepared, and 44 felt well prepared for a natural disaster.
- Email, direct mailings, social media, and the County website were the best choices to reach the public regarding disaster information and making homes more disaster resistant.

## **Help Reduce Disaster Losses in Your Community!**

### **We need your participation in the Placer County Local Hazard Mitigation Plan Update**

Placer County is partnering with their incorporated communities and several special districts to develop a Local Hazard Mitigation Plan (LHMP) Update to their 2016 plan. The purpose of this LHMP Update is to assess community risk and vulnerability to identified hazards, implement actions to reduce future losses, and maintain eligibility for federal mitigation funds in accordance with the Disaster Mitigation Act of 2000.

#### ***What is Hazard Mitigation?***

***Hazard mitigation means any action taken to reduce or eliminate the long-term risk to human life and property from natural hazards.***

#### ***Why is Natural Hazard Mitigation Important?***

Most people who live or work in Placer County have been affected by natural hazards in one way or another. Placer County and its residents are vulnerable to a variety of hazards including floods, drought, wildfire, earthquake, and a variety of other severe weather events.

The rising costs associated with disaster response and recovery have focused the attention of federal, state, and local governments on addressing natural hazards before they occur. Obviously, torrential rains and floods cannot always be prevented from occurring. Planning for natural hazards and implementing mitigation measures, however, can reduce the impact of such events when they do occur. Emergency response and recovery costs; property damage; personal injury and loss of life; and the overall economic and social impact on the community can all be reduced, and in some instances eliminated through natural hazard mitigation.

#### ***Hazard Mitigation Plan and Plan Update Process***

Utilizing a FEMA grant, Placer County is developing an update to their 2016 LHMP. This LHMP Update is being developed by a Hazard Mitigation Planning Committee comprised of representatives from the County, Cities, neighboring jurisdictions, federal, state, and local agency stakeholders, and the public.

The plan will address an updated list of hazards, will assess the likely impacts of these hazards to the people and assets of the Placer County Planning Area, and will also establish updated goals and prioritize projects to reduce the impacts of future disasters on people and property as well as to critical facilities and infrastructure.

Another benefit of mitigation planning is that it can also help lessen the cost of flood insurance to the residents of Placer County through FEMA's National Flood Insurance Program's (NFIP) Community Rating System.

### *National Flood Insurance Program's Community Rating System*

The NFIP's Community Rating System (CRS) is a voluntary incentive program that recognizes and encourages community floodplain management activities that exceed the minimum NFIP requirements. As a result, flood insurance premium rates are discounted to reflect the reduced flood risk resulting from the community actions in meeting the goals of the CRS Program. The reduction in flood insurance premium rates is provided according to a community's CRS classification. Placer County is currently a CRS Class 5, which provides for a 25 percent discount on flood insurance to those located within the special flood hazard area (SFHA) and a 10 percent discount to those located in non-SFHA areas.

### *Opportunities for Input*

Members of the community have a very important role in this process.

#### **Draft LHMP Documents**

A draft of the LHMP Update is available for review and comment by the public and all interested stakeholders on the County website at: <https://www.placer.ca.gov/1381/Local-Hazard-Mitigation-Plan> and hard copies placed in the following locations: **INSERT**.

All comments on the Public Review Draft should be submitted to [jeanine.foster@fostermorrison.com](mailto:jeanine.foster@fostermorrison.com).

#### **Final Meetings**

##### **Public Meeting**

Wednesday June 9, 2021  
6:00-7:30 pm (Zoom Meeting)

##### **Final Committee Meeting**

Thursday June 10, 2021  
9:00-11:00 am (Zoom Meeting)

All interested stakeholders and members of the public are encouraged to attend our planning team and public meetings.

For more information on this project and Zoom information for the upcoming meetings go to: <https://www.placer.ca.gov/1381/Local-Hazard-Mitigation-Plan> or contact the following individuals:

## Placer County reviews wildfire preparedness, mitigation; inmate crews 'decimated'

Chief: Inmate program has been 'decimated' across state

Stacey Adams May 28, 2021 12:00 PM

The Placer County Board of Supervisors received a presentation Tuesday of the county's efforts regarding wildfire preparedness and mitigation.

"Last year was a record year," said Brian Estes, CAL FIRE/Placer County Fire Department Chief. "In fact, it was the most disastrous fire season recorded in California history."

Estes said 4.2 million acres were burned in state responsibility area and national forest system land, 10,488 structures were burned or destroyed and 33 deaths were directly related to fires. There were 341 wildland fires in Placer County.

"CAL FIRE has a mission of keeping 95 percent of our fires at 10 acres or less," Estes said, noting a success rate of 95.8 percent within the county, as 14 fires grew beyond 10 acres for 1,459 total acres.

For the 2021 fire season, Estes said there are no late spring rains predicted and potential for monsoonal flow with lightning into the summer months. Estes noted burning conditions (soil moisture, fuel moisture) are three months ahead of normal.

In preparation, burning was suspended May 24. Estes said stateside staffing will peak June 11 with 411 state-funded personnel, and the county is always at full preparedness level. Across the counties, there will be 22 frontline engines, five reserve engines, five Type I hand crews, four dozer units and the aircraft will come online at Grass Valley Air Attack Base on or around June 1.

"Probably the biggest thing that we should all be concerned about is that our inmate firefighting hand crew program has literally been decimated across the state," Estes said.

According to Estes, the peak capacity of inmate hand crews is normally 160 crews with 15-17 per crew. This year, there are 80 hand crews with two local crews of 13-14 out of Nevada County.

**COUNTY OF Placer**

### 2021 LOCAL HAZARD DRAFT MITIGATION PLAN UPDATE

Roseville, CA- Placer County's local hazard mitigation draft plan is now live on its website and the county is seeking community feedback to the plan update.

The plan, a partnership with cities and special districts, assesses the risk of floods, drought, wildfires, severe weather, and other natural hazards of concern to the county. While hazards are not always preventable, a hazard mitigation plan establishes the foundation for a long-term community strategy to reduce disaster losses, while also making Federal Emergency Management Agency resources available upon plan approval.

## Public Comments Received and How Addressed

Comment Date	Person Commenting	Method Received			Comments	How addressed?
		Email	Phone	Written		
2/4/2021	Heath Wakee	X			<p>Hi Jeanine &amp; Chris,  Thank you for the good meeting today. I'm a rookie at this and I have comments but some (all) of my comments may not be relevant. If you feel that there is merit in including the mentioned risks and you need clarification, please let me know and I'll do the research.</p> <ol style="list-style-type: none"> <li>1. You mentioned the potential need for temporary heat and cooling shelters. What about the need for shelters when either the Hayward or San Andreas fault explode in the Bay area? We may have an influx of a million people looking for food and shelter.</li> <li>2. There are many automobile bridges along Auburn Ravine including a railroad bridge. Debris can block the flow and undermine their foundations.</li> <li>3. The Gold Hill Dam along Auburn Ravine is a threat to downstream dams and property. It should be evaluated to ensure that it would be able to withstand all hazards.</li> <li>4. The levi along Auburn Ravine in Lincoln has failed in the past and the most recent storm resulted in some levi erosion. A larger storm would likely have breached the levi.</li> </ol> <p>Best Regards, Stay Safe &amp; Well, Heath Wakelee</p>	<p>Hi Heath,  We are glad you could make the meeting. Good input below on problem areas and issues. I will share and discuss with the Placer County flood folks to get their input on the Auburn Ravine area, but seems like it should be included as a problem area in the plan and possible mitigation strategies identified. With respect to the Auburn Ravine area, do you all have information on specific events that resulted in road or bridge closures, flooding etc. and the impacts and damages \$\$ caused by those events. It would be good to be able to document past losses in these areas. Your concern on the big earthquake in other areas causing mass evacuations and sheltering needs is real, but really beyond the scope of this LHMP. The State of California is also required to do a state level hazard mitigation plan and that falls more under their efforts. Keep in mind that identifying problem areas and including a mitigation action in the plan does not insure it will get addressed as all projects are subject to funding, and most funding will be pursued, depending on other priorities, and if there are champions at the local government level. But identifying the issue and including it in the plan is a good start. I hope you and your group will continue to participate in this process. Feel free to reach out with any questions or additional information and we will be back in touch. Thanks,  Jeanine Foster</p>

### A.3 Placer County Step 3: Coordinate

This planning step credits coordinating with other agencies and key stakeholders and incorporating other plans and other agencies' efforts into the floodplain management plan or LHMP. Other agencies and organizations were contacted to determine if they have studies, plans and information pertinent to the floodplain management plan, to determine if their programs or initiatives may affect the community's program, inviting them to participate in the planning process, and otherwise asking them to support the community's efforts in this LHMP Update. Coordination efforts with these other agencies are documented in Table A-2 below.

*Table A-2 List of Agencies and Key Stakeholders Coordinated with Through the 2021 LHMP Update Process*

## California Dept of Conservation

Good Morning,

Your request for Williamson Act data was forwarded to me.

Due to the lack of city and county reported enrollment data, the Department of Conservation does not host Williamson Act enrollment maps and/or data. For the most current and up to date information on the status of Williamson Act contracted parcels the Department suggests that interested parties contact the city or county in which the property resides. As you know the Williamson Act allows local landowners to enter into contracts with cities and/or counties, and as such, the participating city/county must retain a copy of each contract and therefore should have a record of each contracted parcel within its jurisdiction.

Sincerely,

### Farl Grundy

Associate Environmental Planner  
Division of Land Resource Protection  
Williamson Act / CEQA

**Subject:** RE: Release of documents

Chris,

I have finished updating all the documents for Placer (2016), Sacramento (2018), Sutter (2018), and Yuba (2018). I have not had time to update the links on the website yet, but I didn't want you to have to wait until next week.

I have attached the documents that meet the Accessibility Standards for publishing. These include: Prime & Statewide Soils Lists (Sacramento\_gSSURGO.pdf, Sutter\_gSSURGO.pdf, and Yuba\_gSSURGO.pdf); Land Use Summary Tables (SAC\_1988\_2018.xlsx, SUT\_1988\_2018.xlsx, and YUB\_1988\_2018.xlsx); and Alternate Conversion Tables (Alternate\_Sacramento\_County\_2016-2018\_Land\_Use\_Conversion.pdf, Alternate\_Sutter\_County\_2016-2018\_Land\_Use\_Conversion.pdf, and Alternate\_Yuba\_County\_2016-2018\_land\_Use\_Conversion.pdf).

Several of our documents are not currently ADA compliant for the web due to time constraints and/or complexity. These documents are available through our File Request System. I have included the links to these documents below:

## CA DWR/Sami Nall

### Email Log

<b>Project: Placer County 2021 LHMP Update</b>		<b>Date: 11/10/20</b>
<b>Contact Name</b>	Sami Nall, Sr. Engineer	
<b>Contact Organization</b>	CA DWR, Office of Floodplain Management	
<b>Contact Email</b>	<a href="mailto:Sami.Nall@water.ca.gov">Sami.Nall@water.ca.gov</a>	
<b>Subject</b>	DSOD Dam Data: Hazard Classifications and Inundation Data	

<b>Items Discussed</b>
Reached out to Sami Nall at CA DWR to find out what source should be the most current for determining Hazard
Classifications and inundation data for dams, as different sources reported different data even within the CA DWR
DSOD. Sami indicated that both an annual document and the DSOD viewer should be current, but that the viewer
Should take precedent.

**To:** Jeanine Foster <jeanine.foster@fostermorrison.com>  
**Subject:** RE: California DWR, DSOD data

Hi Jeanine, Let me ask DSOD about this as I would think the viewer would be more current. However there is an updated document (dated 2019) at this link: [https://water.ca.gov/-/media/DWR-Website/Web-Pages/Programs/All-Programs/Division-of-Safety-of-Dams/Files/Publications/2019-Dams-Within-Jurisdiction-of-the-State-of-California-Alphabetically-by-County\\_a\\_y20.pdf](https://water.ca.gov/-/media/DWR-Website/Web-Pages/Programs/All-Programs/Division-of-Safety-of-Dams/Files/Publications/2019-Dams-Within-Jurisdiction-of-the-State-of-California-Alphabetically-by-County_a_y20.pdf).

I believe DSOD publishes an updated list every year. However, it may be taking longer to publish it because of accessibility rules. I'll also check to see if an updated list will be published in 2020.

Thanks,  
Sami

## National Weather Service/ Michelle Mead

### Email Log

<b>Project: Placer County 2021 LHMP Update</b>		<b>Date: 12/7/20</b>
<b>Contact Name</b>	Michelle Mead, Meteorologist in Charge	
<b>Contact Organization</b>	National Weather Service, WFO Sacramento	
<b>Contact Email</b>	<a href="mailto:michelle.mead@NOAA.gov">michelle.mead@NOAA.gov</a>	
<b>Subject</b>	Weather Data and Available Weather Stations	

<b>Items Discussed</b>	
Reached out to Michelle to determine where to go for better/updated weather data as some of the weather stations have limited data and some have stopped keeping data altogether. We try to find the stations that have the most data for the longest period of record (POR). Michelle suggested looking at: XMACIS: <a href="https://xmacis.rcc-acis.org/">https://xmacis.rcc-acis.org/</a> - a site that has a lot of climate information.

**Subject:** Re: California Weather Data

Good morning Jeanine~

XMACIS: <https://xmacis.rcc-acis.org/> is a site that has a lot of climate information you may also find useful. It's not the most user friendly, but does give you access to all historical climatological data. The Marysville AP data on this site is up to date. I added the max temps for Marysville over the past 20 years as an example.

I have been getting these hazard mitigation emails, but have not been able to attend.

Sincerely,  
Michelle

## Firewise Coordinator

<b>Project: Placer County 2021 LHMP Update</b>		<b>Date: 1/28/2021</b>
<b>Contact Name</b>	Luanna Dowling	
<b>Contact Organization</b>	Placer County Firewise Community Coordinator	
<b>Email</b>	dowlingluana@gmail.com	
<b>Subject</b>	Participation in LHMP and Agency Coordination	

Items Discussed	
Rod Rodriguez, County OES, contacted Luanna Dowling via phone and email to confirm her participation in the LHMP Update process and to request her help in contacting other agencies and getting the word out on the LHMP Update. This information was communicated at multiple Firewise Community meetings to let people know the LHMP Update process was underway and how they could get involved.	

Follow-up		
Keep Luanna informed of the LHMP and her continued communication of the LHMP Update process as part of her Firewise Community meeting agendas		
By	Name: Jeanine Foster	Organization: Foster Morrison

## Cal Fire/Steve Garcia

<b>Project:</b> Placer County 2021 LHMP Update	<b>Date:</b> June 9 &10
<b>Meeting Purpose:</b> Final HMPC Meeting	

<b>Attendees:</b> See June 10 Meeting Sign-in for all attendees – contact is for Steve Garcia		
Name	Agency	Contact Phone
Steve Garcia	Cal Fire	

Items Discussed
Steve Garcia was invited to attend the final HMPC meeting to provide input on fire issues and possible mitigation measures throughout the County from the Cal Fire perspective.

Follow-up		
Integrate information into LHMP Update		
By	Name	Organization
	Jeanine Foster	Foster Morrison

## Placer County Hazard Identification 2021

Hazard	Geographic Extent	Likelihood of Future Occurrences	Magnitude/Severity	Significance	Climate Change Influence
Avalanche					Medium
Climate Change					–
Dam Failure					Medium
Drought & Water Shortage					High
Earthquake					Low
Floods: 1%/0.2% annual chance					Medium
Floods: Localized Stormwater					Medium
Landslides, Mudslides, and Debris Flows					Medium
Levee Failure					Medium
Pandemic					Medium
Seiche					Medium
Severe Weather: Extreme Heat					High
Severe Weather: Freeze and Snow					Medium
Severe Weather: Heavy Rains and Storms (Hail, Lightning)					Medium
Severe Weather: High Winds and Tornadoes					Low
Wildfire					High
<b>Geographic Extent</b>		<b>Magnitude/Severity</b>			
Limited: Less than 10% of planning area		Catastrophic—More than 50 percent of property severely damaged; shutdown of facilities for more than 30 days; and/or multiple deaths			
Significant: 10-50% of planning area		Critical—25-50 percent of property severely damaged; shutdown of facilities for at least two weeks; and/or injuries and/or illnesses result in permanent disability			
Extensive: 50-100% of planning area		Limited—10-25 percent of property severely damaged; shutdown of facilities for more than a week; and/or injuries/illnesses treatable do not result in permanent disability			
<b>Likelihood of Future Occurrences</b>		Negligible—Less than 10 percent of property severely damaged, shutdown of facilities and services for less than 24 hours; and/or injuries/illnesses treatable with first aid			
Highly Likely: Near 100% chance of occurrence in next year, or happens every year.		<b>Significance</b>			
Likely: Between 10 and 100% chance of occurrence in next year, or has a recurrence interval of 10 years or less.		Low: minimal potential impact			
Occasional: Between 1 and 10% chance of occurrence in the next year, or has a recurrence interval of 11 to 100 years.		Medium: moderate potential impact			
Unlikely: Less than 1% chance of occurrence in next 100 years, or has a recurrence interval of greater than every 100 years.		High: widespread potential impact			
		<b>Climate Change Influence</b>			
		Low: minimal potential impact			
		Medium: moderate potential impact			
		High: widespread potential impact			

## HISTORIC HAZARD EVENTS WORKSHEET

Please fill out one sheet for each significant hazard event with as much detail as possible. Attach supporting documentation, photocopies of newspaper articles, or other original sources.

Type of event

## *Risk Assessment Methodology*

### Calculating Likelihood of Future Occurrence

The frequency of past events is used in this section to gauge the likelihood of future occurrences. Based on historical data, the likelihood of future occurrence is categorized into one of the following classifications:

- **Highly Likely:** Near 100% chance of occurrence in next year, or happens every year.
- **Likely:** Between 10 and 100% chance of occurrence in next year, or has a recurrence interval of 10 years or less.
- **Occasional:** Between 1 and 10% chance of occurrence in the next year, or has a recurrence interval of 11 to 100 years.
- **Unlikely:** Less than 1% chance of occurrence in next 100 years, or has a recurrence interval of greater than every 100 years.

### Calculating Vulnerability

Vulnerability is measured in general, qualitative terms, and is a summary of the potential impact based on past occurrences, spatial extent, and damage and casualty potential:

- **Extremely Low:** The occurrence and potential cost of damage to life and property is very minimal to non-existent.
- **Low:** Minimal potential impact. The occurrence and potential cost of damage to life and property is minimal.
- **Medium:** Moderate potential impact. This ranking carries a moderate threat level to the general population and/or built environment. Here the potential damage is more isolated and less costly than a more widespread disaster.
- **High:** Widespread potential impact. This ranking carries a high threat to the general population and/or built environment. The potential for damage is widespread. Hazards in this category may have already occurred in the past.
- **Extremely High:** Very widespread and catastrophic impact.

### Defining Significance (Priority) of a Hazard

Defining the significance or priority of a hazard to a community is based on a subjective analysis of several factors. This analysis is used to focus and prioritize hazards and associated mitigation measures for the plan. These factors include the following:

- **Past Occurrences:** Frequency, extent, and magnitude of historic hazard events.
- **Likelihood of Future Occurrences:** Based on past hazard events.
- **Ability to Reduce Losses through Implementation of Mitigation Measures:** This looks at both the ability to mitigate the risk of future occurrences as well as the ability to mitigate the vulnerability of a community to a given hazard event.

## *Risk Assessment Summary: Placer County Planning Area*

### **Agricultural Hazards**

- Most agricultural disasters in Placer County are associated with severe weather events, including heavy rains, floods, heat, and drought; insects and noxious weeds are also a concern.
- All but one USDA declarations (24 total) from 2002-2020 were associated with severe weather events; one associated with fire. Since 2012, 20 out of 23 USDA declarations were associated with drought.
- WHAT ARE THE BIGGEST AG ISSUES RELATED TO NATURAL HAZARDS?
- Likelihood of Future Occurrence: Highly Likely
- Vulnerability: Medium
- Priority Hazard

### **Avalanche**

- High and moderate avalanche zones are located near the Placer-Nevada County line, south of Donner Lake and Lake Van Norden, east of Tahoe City, near Twin Peaks and McKinney Bay, and in areas near Squaw Valley, Alpine Meadows, and Sugar Bowl.
- Since 2009, there have been 286 avalanche fatalities in the US. There were 20 avalanche fatalities in Placer County between 1982 and 2020. Of these, 2 fatalities occurred in two incidents since the 2016 LHMP.
- ANY ADDITIONAL ISSUES/CONCERNS SINCE THE 2016 LHMP?
- Likelihood of Future Occurrence: Likely
- Vulnerability: Low
- Non-Priority Hazard?

### **Climate Change**

- The 2018 State of California Multi-Hazard Mitigation Plan stated that climate change is already affecting California. Sea levels have risen by as much as seven inches along the California coast over the last century, increasing erosion and pressure on the state's infrastructure, water supplies, and natural resources. The State has also seen increased average temperatures, more extreme hot days, fewer cold nights, a lengthening of the growing season, shifts in the water cycle with less winter precipitation falling as snow, and both snowmelt and rainwater running off sooner in the year. Climate Change has the potential to alter the nature and frequency of most hazards.
- THE PLACER COUNTY SUSTAINABILITY PLAN HAS LOTS OF GREAT CLIMATE CHANGE INFO. DOES ANYONE HAVE ANY CLIMATE CHANGE CONCERNS/ISSUES TO NOTE?
- Likelihood of Future Occurrence: Likely
- Vulnerability: Medium
- Priority Hazard

### **Dam Failure**

- According to data provided by Placer County, CA DWR, and Cal OES, there are 47 dams in the County. Of these, there are 3 extremely high hazard dams, 11 high hazard dams, 9 significant hazard dams, and 12 low hazard dams in Placer County that falls under the jurisdiction of the DSOD (jurisdictional dams

described above). 12 dams in Placer County lie outside the jurisdiction of the DSOD and do not have a hazard classification.

- In addition, there are 2 extremely high (Camp Far West/Rollins) and 4 High Hazard dams (Combie, Magnolia, Mark Edson, Lake Angela) located outside the County with inundation areas in unincorporated Placer.
- The most significant dams of concern include the Extremely High and High Hazard where loss of life is possible.
- Most inundation areas from extremely high and high dams intersect the unincorporated County; 3 dams (inside the County) also intersect Auburn – Lake Valley, LL Anderson, Sugar Pine.
- 4 Dam incidents affecting Placer County: 1964 Hell Hole Dam failure, 1986 Auburn Coffey Dam Failure, August 2004 Ralston Dam Release Gate Break, 2009 Cottonwood dam incident, Oroville Spillway Incidence 2018 (Butte County), OTHERS?
- WHAT ARE THE COUNTY’S BIGGEST CONCERN FROM DAMS? MOST NOTABLE DAMS OF CONCERN?
- Likelihood of Future Occurrence: Occasional
- Vulnerability: High to Extremely High?
- Priority Hazard

### Drought and Water Shortage

- Historical drought data for the Placer County Planning Area and region indicate there have been 5 significant droughts in the last 84 years.
- Since 2012, snowpack levels in California had dropped dramatically. 2015 estimates place snowpack at 5 percent of normal levels. However, snowpack levels increased in 2016 and in 2017 snowpack levels were the highest they’ve been in 22 years. But then back down again in early 2018, only to be back up again in late 2018/2019. 2019/2020 was experiencing a fair amount of rain early on, and now again as we go in to 2021.
- 1 state (2014) disaster declarations and 1 federal declaration (1977) for Placer County since 1950. 26 USDA disaster declarations for drought 2012 – 2020. There have been 44 NCEM drought events in Placer County.
- WHAT ARE THE BIGGEST ISSUES/IMPACTS AND CONCERNS IN THE COUNTY FROM DROUGHT AND WATER SHORTAGE?
- Likelihood of Future Occurrence: Drought - Likely/Water supply - Occasional
- Vulnerability: High
- Priority Hazard

### Earthquake

- Placer County lies between two seismically active regions in the western United States. Tectonic stresses associated with the North American-Pacific Plate boundary can generate damaging earthquakes along faults 30 to 100 miles to the west of the County. Extreme eastern Placer County borders the Basin and Range province that entails most of Nevada and western Utah. This area is riddled with active faults that are responsible for and form the boundary between each basin or valley and the neighboring mountain range.
- The USGS National Seismic Hazard Maps provides acceleration and probabilities for various time periods. Placer County falls within an area of mostly low to moderate seismic risk.

- USGS identified 51, 5.0 or greater earthquakes have occurred within 90 miles of Western Placer, and 66, 5.0 or greater earthquakes have occurred within 90 miles of Eastern Placer.
- ANY SPECIFIC PAST OR FELT OCCURRENCES FROM NEARBY EVENTS? PAST DAMAGES? WHAT ABOUT THE EARTHQUAKES ON THE EASTERN SIDE OF THE COUNTY?
- DO COMMUNITIES HAVE A URM OR OTHER INVENTORY OF VULNERABLE SEISMIC BUILDINGS?
- Likelihood of Future Occurrence: Unlikely – large, damaging earthquake; Occasional – minor earthquake
- Vulnerability: High – Extremely High?
- Priority Hazard?

## Flood Hazards

### 1%/0.5%/0.2% Annual Chance

- Historically, portions of Placer County have always been at risk to flooding because of its annual percentage of rainfall in the winter and the number of watercourses that surround/traverse the County.
- 16 state and 13 federal declarations from 1950-present were for heavy rains and flooding. 39 NCDC Flood Events, and an additional 59 events related to severe rain and storms.
- REVIEW RISK ASSESSMENT AND ADD INFORMATION ON MAJOR FLOOD EVENTS.
- NEED SUMMARY OF IMPACTS FROM THE 2017/2018 FLOOD EVENT (THAT RESULTED IN EOC ACTIVATION AND A DISASTER DECLARATION). NEED INFORMATION ON ANY OTHER EVENTS SINCE THE 2016 PLAN. HOW ABOUT 2019 AND LAST WEEK?
- Likelihood of Future Occurrence: 1%-Occasional; 0.5% and 0.2%-Unlikely
- Vulnerability: High
- Priority Hazard

### Localized/Stormwater flooding

- Significant localized flood history in the County – occurs annually
- CAN THE EACH PARTICIPATING JURISDICTION PROVIDE UPDATED DETAILS ON PROBLEM AREAS? PAST OCCURRENCES?
- REVIEW RISK ASSESSMENT AND ADD INFORMATION ON SIGNIFICANT FLOOD EVENTS/ISSUES/AREAS.
- Likelihood of Future Occurrence: Highly Likely
- Vulnerability: Medium
- Priority Hazard

## Landslides, Mudslides, and Debris Flows

- The NCDC contains no records of landslides in the County. There have been no disaster declarations associated with landslides in Placer County.
- Notable landslides of record include the landslides in the Tahoe area along the Truckee River, Squaw Creek, and Bear Creek rivers associated with the 1997 Flood event.
- Recent landslide areas of concern (from 2016 LHMP) include the following: Old Foresthill Road, Ophir Road (two sites) – (1) near Stonehouse Road and (2) near Wise Road, Yankee Jim/s Road. OTHERS?

- Other landslide incidents of varying degrees of magnitude tend to occur in places throughout the County several times in a given year, but in most cases do not cause significant damage or public safety risk.
- ANY CURRENT LOCATIONS/PAST EVENTS TO NOTE?
- Likelihood of Future Occurrence: Occasional
- Vulnerability: Low
- Non-Priority Hazard

### Levee Failure

- Several levees within Placer County and its incorporated communities (Roseville/Lincoln) have been determined to provide protection from the flood that has a 1-percent-chance of being equaled or exceeded in any given year.
- There are several existing levee systems at the downstream end of Auburn Ravine (mainly past the confluence with Orchard Creek) that are not certified by FEMA as providing protection against a 1% annual chance flood.
- No past occurrences of levee failure. ANY PAST OCCURRENCES/ISSUES/CONCERNS?
- Likelihood of Future Occurrence: Unlikely
- Vulnerability: Low
- Non-Priority Hazard

### Pandemic

- The 20<sup>th</sup> Century had 3 Pandemics (WHO): 1918-1919 Influenza Pandemic (H1N1), 1957-1958 Influenza Pandemic (H2N2), and the 1968 Influenza Pandemic (H3N2). The 21<sup>st</sup> Century had 2 Pandemics (WHO): 2009 Swine Flu (H1N1) and 2020 Covid-19.
- One 2020 state and federal declaration for Covid-19; the NCDC does not track pandemics.
- The Placer County EOC was activated for COVID-19 in March – April (Level 1), May (Level 2), and June (Level 3).
- As of early February 2021, there had been over 18,000 cases of Covid-19 in the County and around 200 deaths.
- CAN WE GET A BRIEF SUMMARY OF PLACER COUNTY COVID-19 IMPACTS/ RESPONSE EFFORTS/PRIMARY ISSUES/CONCERNS? WHAT ABOUT THE 2009 SWINE FLU?
- Likelihood of Future Occurrence: Likely
- Vulnerability: High
- Priority Hazard

### Seiche

- Research from the University of Nevada estimates that an earthquake must be at least a magnitude 6.5 to cause a damaging seiche at Lake Tahoe. The three faults directly underneath the lake are considered capable of generating magnitude 7.0 or larger earthquakes. Computer models of seiche activity at Lake Tahoe prepared by the University of Nevada research team estimate that waves as high as 30 feet could strike the shore. These projections suggest largest waves might hit Sugar Pine Point, Rubicon Point, and the casinos in South Lake Tahoe.
- There have been no occurrences of major seiche activity at Lake Tahoe in recent years. University of Nevada geologists have found deposits that extend for 10 miles along the McKinney Bay shore from

Sunnyside through Tahoma. These deposits indicate a tsunami or seiche with 30-foot-high waves occurred approximately 7,000 years ago.

- ANYTHING TO UPDATE FOR SEICHE?
- Likelihood of Future Occurrence: Unlikely
- Vulnerability: High
- Non-Priority Hazard?

## Severe Weather

### Extreme Heat

- Annual occurrences of hot temperatures. The highest recorded daily extreme was 113°F in July 1972 in western Placer. In a typical year, maximum temperatures exceed 90°F on 67.7 days in western Placer.
- In eastern Placer, the highest recorded daily extreme was 94°F in July 1933. In a typical year, maximum temperatures exceed 90°F on 0.4 days in eastern Placer.
- No state or federal disaster declarations. 5 USDA declarations since 2012. 32 extreme heat events (NCDC) since 1950.
- Climate change likely to affect this hazard in the future.
- EOC activations include an Extreme Heat and Potential Rolling Blackout in August 2020; numerous PSPS events: 2018 (2), 2019 (7), 2020 (5).
- IS THERE A SUMMARY OF PSPS EVENTS, AREAS AFFECTED, DURATION, ETC. TO NOTE?
- PLEASE PROVIDE DETAILS ON OTHER EXTREME HEAT EVENTS/MAJOR CONCERNS?
- Likelihood of Future Occurrence: Highly Likely
- Vulnerability: Medium
- Priority Hazard

### Freeze and Snow

- Annual occurrences of winter weather
- The lowest recorded daily extreme was 16°F in 1972 in western Placer. In a typical year, minimum temperatures fall below 32°F on 22.6 days with 0 days falling below 0°F. Average snowfall on the western side of the County is 1.4 inches
- The lowest recorded daily extreme was -16°F in 1972 in eastern Placer. In a typical year, minimum temperatures fall below 32°F on 209 days with 0.4 days falling below 0°F. Average snowfall on the eastern side of the County is 190.7 inches.
- 913 severe winter weather and freeze events (NCDC) from 1993-2014
- 1 freeze and severe weather state Disaster Declaration, 1972
- HMPC TO REVIEW RISK ASSESSMENT TO PROVIDE DETAILS ON MAJOR FREEZE AND SNOW EVENTS IN THE COUNTY. WHAT ABOUT BIG SNOW EVENTS IN THE EASTERN SIDE OF THE COUNTY SINCE 2016? HOW ABOUT THIS LAST WEEK?
- Likelihood of Future Occurrence: Highly Likely
- Vulnerability: Medium
- Priority Hazard

## Heavy Rains and Storms (Hail, Lightning, Wind)

- Significant County history: annual occurrences; Severe storms/heavy rains are the primary cause of most major flooding.
- Average annual precipitation in western Placer County is 34.39 inches per year. The highest recorded annual precipitation is 64.87 inches in 1983; the highest recorded precipitation for a 24-hour period is 5.41 inches on October 13, 1962. The lowest recorded annual precipitation was 11.76 inches in 1976.
- Average annual precipitation in eastern Placer County is 31.46 inches per year. The highest recorded annual precipitation is 66.41 inches in 1996; the highest recorded precipitation for a 24-hour period is 7.0 inches on November 4, 1903. The lowest recorded annual precipitation was 9.34 inches in 1976.
- There have been 16 federal and 13 state declarations since 1950 for flooding, including heavy rains and storms. Since 2012, there have been 9 USDA declarations related to heavy rains.
- The NCDC data recorded 68 events for Placer County since 1950.
- CAN THE HMPC PROVIDE DETAILS ON HEAVY RAIN AND STORM EVENTS, INCLUDING HAIL, LIGHTNING, AND WIND IN THE COUNTY SINCE 2013. PA SHEETS? OTHER?
- Likelihood of Future Occurrence: Highly Likely
- Vulnerability: Medium
- Priority Hazard

## Tree Mortality

- Tree Mortality has been a significant issue in Placer County since the 2012-2016 tree mortality event in the central and southern Sierra Nevada counties.
- No state or federal disaster declarations for Tree Mortality since 1950. A state of emergency was declared in 2015. NCDC does not track tree mortality issues.
- CAN THE COUNTY PROVIDE US WITH DATA AND PROBLEM AREAS, KEY ISSUES/CONCERNS RELATED TO TREE MORTALITY? INCLUDE BOTH PAST EVENTS, AREAS AFFECTED, AND MITIGATION UNDERTAKEN SINCE 2016.
- Likelihood of Future Occurrence: Highly Likely
- Vulnerability: High
- Priority Hazard

## Wildfire

- Wildfires occur on an annual basis in the Placer County Planning Area.
- Any ignition has the potential to become an out of control wildfire.
- Numerous named fires causing a variety of damages.
- 5 state and 6 federal disaster declarations for Wildfire since 1950.
- Cal Fire database lists numerous notable fires; 22 NCDC wildfire events since 1993.
- Significant wildfires since the 2016 LHMP include those where EOC was activated: Trail Head Fire (2016), North Fire, Sliger Fire, and Camp Fire (2018), Fork Fire (2020). NEED SPECIFIC IMPACTS TO COUNTY AND JURISDICTIONS FROM THESE FIRES.
- OTHER SIGNIFICANT HISTORIC WILDFIRES AND PAST DAMAGES/ IMPACTS/ ISSUES SINCE 2016? INCLUDE THOSE BOTH OCCURRING INSIDE AND OUTSIDE THE COUNTY WHERE THE COUNTY WAS AFFECTED? 2020 NORTH COMPLEX FIRE?
- INCLUDE INFORMATION ON IMPACTS AND DAMAGES, AIR QUALITY AND SMOKE ISSUES? EVACUATION OR MUTUAL AID SUPPORT? OTHER?

- Likelihood of Future Occurrence: Highly Likely
- Vulnerability: Extremely High
- Priority Hazard

## *Data Needs*

### Review of Key Items to Date

- Hazard-specific data
  - ✓ Hazard ID tables
  - ✓ Historic Hazard Worksheets or list of past hazard occurrences and impacts to each jurisdiction
    - Old participating jurisdictions – need past occurrences/hazard history since 2016
    - New participating jurisdictions –significant hazard occurrences - back 50 years or so
- Risk Assessment Worksheets (County)
- Data on future development areas (County/Cities)

### Other Data Items

#### General

- Logos for each participating jurisdiction
- Historic Hazard Data and Key areas affected by Jurisdiction (items identified in today's meeting)
- PA Summaries
- Photos, Photos, Photos
- Review of Updated Chapter 4 Risk Assessment and Jurisdictional Annexes

### **A.4.3. Mitigation Strategy Meeting Handouts**

Handouts specific to the Risk Assessment Meeting can be found in Appendix C.

### **A.4.4. Final HMPC Meeting Handouts**

The Final Meeting handout is contained in Section 2.2 of the Base Plan.

### **A.4.5. Initial Public Meeting Handouts**

#### ***Placer County LHMP Update: 2021 Hazards***

- Avalanche
- Climate Change
- Dam Failure
- Drought and Water Shortage
- Earthquake
- Flood: (1%/0.2% year)
- Flood: Localized/Stormwater
- Landslide, Mudslide, and Debris Flows
- Levee Failure
